Subject: Grant Redevelopment Data
Attachments: Redevelopment Questionnaire.xlsx

Hi Crystal,

I hope this note finds you safe and sane during this challenging time. I am finishing up my work at Brownfields and I can use your help.

The Region 3 Brownfields group is focused on capturing redevelopment data for previously closed grants. This information is used to credit the great work that you have done in your communities and assists us with showing the value of Brownfields grants. Below is a list of grants with missing information in ACRES. Specifically, Institutional Controls and/or missing Cleanup Completion Date Information is needed.

Assessment	BF-963595-01-0	PA	Greene County IDA (FY18)		\$300,000
------------	----------------	----	--------------------------	--	-----------

I understand that not all of this information is readily available, but I'm hopeful that we can collect the redevelopment data on most sites. Can you fill out the questionnaire for each site with information that you currently have on hand and return via email? Also, I encourage you to enter your redevelopment data in ACRES.

Thank you for your assistance.

Bob
